PROLOGUE

Graduation marks the latest - and perhaps greatest - milestone in your journey thus far. It is a testament to the countless hours of hard work, dedication, late nights and perseverance that have brought you to this moment. And so, today, at UCSI's first and second convocation sessions of 2025, we proudly honour you, the 898 graduands who will soon walk across the stage to receive your scrolls.

And to you, our freshly minted graduates: as you leave here today, know that this is not the end, but the beginning of yet another chapter. More milestones await - some planned, others unexpected. While UCSI has prepared you with the knowledge, adaptability and resilience to navigate an ever-evolving world, learning does not stop here. You have been taught to think critically, to overcome adversity and to pursue excellence. But beyond textbooks, tutorials and practical learning, lies the truest form of education - life itself.

Your future will be shaped by the choices you make. Along the way, you will face social expectations, peer pressure and hard realities. High stakes and daunting challenges that test your resolve may arise without warning. At times, your conscience will be called into question and you will have to make difficult decisions, some of which may not be popular or easy. In those moments, choose to do the right thing. Remember - integrity is what will define your character in the long run. There will also be times when you must learn, unlearn and relearn certain truths. Yet within these challenges lie valuable opportunities for you to grow and forge your own path.

Look to your seniors for inspiration. Among them are four Forbes 30 Under 30 Asia inductees and three Prestige 40 Under 40 laureates. They made bold choices, took calculated risks and stayed true to their ideals despite the challenges that they faced. Now, some are empowering refugees and making life better for them, while others break boundaries and challenge societal norms through their creativity and voices.

Just like you, they once stood where you are now - receiving the same education, donning the same academic regalia and graduating from this very institution. They rose above challenges, refused to take no for an answer and succeeded not just by their smarts, but also by their grit, patience and perseverance. If they can do it, so can you - and perhaps, you might even go further.

And as you move forward, carry kindness, mindfulness and humility with you every step of the way. Always keep your feet on the ground and learn from your mistakes just as much as you celebrate your victories. Be consequential at every opportunity, make a difference and inspire everyone around you.

Congratulations, Class of 2025. You have made it this far. Now, prepare to go even further. Stay true to your values, rise up to every challenge and become the change you seek.

VISION AND MISSION

VISION

To be an intellectually resilient Praxis® University renowned for its leadership in academic pursuits and engagement with the industry and the community.

MISSION

To promote transformative education that empowers students from all walks of life to be successful individuals with integrity, professionalism and a desire to contribute to society.

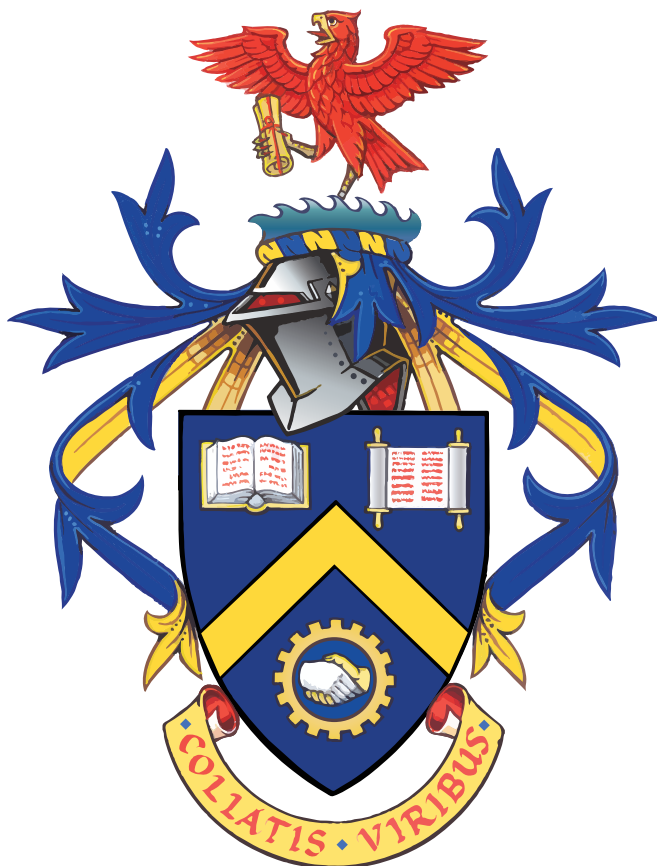

To optimise relationships between industry and academia through the provision of education and unparalleled workplace exposure via Praxis® centres.

To spearhead innovation in teaching and learning excellence through unique delivery systems.

To foster a sustainable culture of research, value innovation and practice, in partnership with industries and society.

To operate ethically at the highest standards of efficiency, while instilling values of diversity and inclusiveness, to sustain the vision for future generations.

THE COAT OF ARMS

From time immemorial, the coat of arms has stood out as the highest visual symbol of prestige and authority. From its early origins as shield insignia in the field of battle, the coat of arms took on emblematic and aristocratic undertones, weaving its way into British and European tradition – one that is now reserved strictly for states, governments, armed forces, nobility and the very best social institutions.

UCSI's unique coat of arms was conferred by the College of Arms in London in conjunction with its pearl jubilee.

THE DESIGN OF THE COAT OF ARMS

Devised and sanctioned by the Garter and Clarenceux King of Arms, UCSI's heraldic design bears the trademark of the College of Arms – a knight's helmet facing west. The other focal elements of the Arms, namely, the Crest; the Arms, or rather, the shield; and the Motto, are steep in meaning.

The colour schematic has much significance. As one of Malaysia's first private universities, UCSI wanted its Arms to depict a strong sense of national identity. After much consideration, the colours of the Jalur Gemilang were chosen. These colours strongly resonate with UCSI's founding values. Red represents audacity, white signifies integrity, blue portrays tenacity and yellow, excellence. These values have propelled UCSI's growth for the past 39 years and their continued adoption will pave the way for the future as the University realises the potential in every student that walks through its gates.

THE CREST

The UCSI crest consists of an eagle with its legs and wings extended. The eagle is clutching a ribboned scroll in one of its talons, perched on seven wave crests. This symbolises the pursuit and attainment of knowledge – the power of education that takes one to greater heights. The seven wave crests depict the seven seas – a term long used to depict all the oceans in the world. This signifies the far-reaching influence a knowledgeable person can wield, not just in his or her country, but around the world.

Delving deeper, the selection of an eagle is significant in many ways. To start, an eagle's vision and focus are second to none. Fearless and tenacious, eagles effortlessly soar and glide at altitudes up to 10,000 feet, setting them apart from other birds. Most importantly, eagles protect and nurture their young. Like an eagle, UCSI has realised the potential for thousands of students who hail from more than 120 countries. The University has improved real life chances for thousands of students and many have gone on to make their mark in the international arena.

Above all, the eagle was chosen to remind the UCSI community that those who aspire and dare greatly will renew their strength. They will soar on wings like eagles; they will run and not grow weary, they will walk and not be faint.

THE ARMS

The UCSI shield contains three unique 'charges' and a golden chevron. The first is an open book that signifies knowledge. Its parallel 'charge' is a roll of papyrus that portrays a reverence for God – a trait that sparks the beginning of wisdom. These two 'charges' are designed to go hand-in-hand. A knowledgeable person may accomplish much but without wisdom and principles to stand on, he or she cannot be a conscientious global citizen. It is UCSI's deep desire to see its students giving back to society, empowering others in the same way they were once empowered.

The last 'charge' shows a gear wheel and clasped hands. These symbols underscore UCSI's standing as a Praxis® University that is committed to the application and practice of knowledge. They also emphasise UCSI's abiding ties with the industry. The gloved hand in the foreground is purposed to be the University and its research endeavours, while the other denotes a multitude of industry partners. By working together, the two achieve progress, moving forward as one.

Lastly, the golden chevron is a symbol of protection – a reinforcing reminder of UCSI's core values. Its upward design – resembling an arrowhead – also signifies UCSI's commitment to continuous improvement.

THE MOTTO

The UCSI motto 'Collatis Viribus' is the Latin equivalent of 'With one united force' or 'Sedaya upaya'. This aptly sums up the UCSI ethos to actively engage all stakeholders in government, the industry and society to achieve the common good. It also exemplifies the spirit of the University – one that brings students and academics together in the shared initiative to go beyond, to be profound and to make a difference.

THE UNIVERSITY LOGO

THE UNIVERSITY LOGO is a stylised wing of a bird in flight, which symbolises UCSI University's dynamism and visionary aspirations to soar to great heights of achievements.

THE BIRD WING is also featured in UCSI University's Coat of Arms as the flames of the torch, signifying UCSI University's versatility and ability to adjust to the winds of change.

THE MACE

The golden globe of UCSI University's mace is wrought in 24K gold to represent the international quality of the education offered by UCSI University.

The 'wings' holding the globe symbolises students from all over the world united in pursuing one common objective: Quality education.

The two petal-like layers of pewter — an outer layer engraved with a black floral motif over an inner layer — and four rings just below the base of the 'wings' signify the many challenging steps that students undergo before they successfully complete their education.

FOREWORD BY THE CHANCELLOR

Congratulations, Class of 2025! Today marks the end of one chapter and the beginning of many more. It is a celebration of your hard work, determination and perseverance. You have overcome challenges to get here and today is an achievement you should each be proud of. Take a moment to thank those who believed in you and supported you throughout this journey - your parents, siblings, loved ones, lecturers and friends. They have helped guide you to this point and made this day possible.

Your education is more than just a credential. It is a light that guides your way forward, and a UCSI education sets you apart. Classified in the world's top 1% and built on the principles of perseverance, integrity and excellence, it opens doors to countless possibilities. Seize this opportunity and use it wisely to shape the future you dream of. We live in an era of rapid change and global transformation. Be curious, adaptable and bold. Every great change begins with a first and you have the power to be part of it.

As you step into the wider world, carry with you not only the knowledge you have gained, but also the values that have shaped your journey here. Stay true to yourself and stay humble. Let your knowledge be the spark that brings positive change to your community. Remember, success is not measured by personal gain, but by the positive impact you create in the world around you.

Our alumni, your seniors, have set the bar high. They have gone on to take their places as leaders and change makers. From impacting industries to empowering refugees, they are leading with integrity, acting with purpose and serving with compassion.

Now it is your turn to make your mark on the world. Go forward with confidence. The world is waiting for you.

Congratulations once again! May your future be filled with purpose and promise.

Yang Amat Mulia Tunku Zain Al-'Abidin Ibni Tuanku Muhriz
UCSI University chancellor

FOREWORD BY THE UCSI UNIVERSITY COUNCIL CHAIRMAN

I want to congratulate and acknowledge all of you - the talented, precocious, accomplished, brilliant and outstanding graduates of the Class of 2025! All your hard work and grit has led you to this moment. Your day. The culmination of your university years. All of us at UCSI University are very proud of you. And so are the people who supported you on this journey - your parents, family, professors and friends.

As you receive your scrolls today, know that the world as we know it has changed drastically. The rise of AI will continue disrupting jobs, industries and the nature of work. The long-standing rules-based order of global trade is being upended. The far right is surging around the world, putting strain on the ideals of diversity, empathy and inclusion. It's a crazy world we live in and from the looks of things, it may just get crazier.

Today, I want to encourage you to remain optimistic and idealistic. The world may not make sense. But you can make sense. Your expertise can provide surety in times of uncertainty. Your idealism can inspire hope in moments of despair. The world is crying out for solutions so look out for the opportunities that come your way. All of you were made for such a time. So, be bold and ever courageous as you embark on your respective careers.

You now join the ranks of UCSI alumni - an ever-growing fraternity that improves lives not only in Malaysia, but around the world. We count among them four Forbes 30 Under 30 Asia inductees, entrepreneurs, scientists, engineers, community organisers, media personalities and leading musicians. From corporate boardrooms to labs, from the corridors of power to warzones, they make a difference in their own special way.

Like your seniors, you too, can do greatly. And like them, I hope that you will stay connected to the UCSI community. However far life may take you, look back fondly on your years at UCSI. Do so, for they shaped the content of your character. Remember the good times you had - those late nights, the group study sessions, the group party sessions and everything in between. Above all, cherish the lasting friendships you made on campus.

Congratulations, Class of 2025! The future is yours to shape and I know you can't wait to get started. Remember that at UCSI, we fly high! And I can't wait to see you soar.

Dato' Peter Ng, FASc

UCSI University Council chairman

FOREWORD BY THE VICE-CHANCELLOR AND PRESIDENT

Congratulations, Class of 2025! You have done well. From the beginning, you made a commitment to your studies, and you have delivered. Today, you celebrate the biggest milestone of your life so far. And we celebrate with you. As you get set for the next chapter, carry forward the same commitment and discipline. Keep looking for new ways to grow, and don't lose that momentum.

Some of you will continue your studies. Others will be stepping into the workforce. Whichever path you take, your UCSI education will serve you well. You've gained valuable skills, real-world experience and industry exposure. A degree from a university ranked in the world's top 1% by the QS World University Rankings 2025 opens doors to limitless opportunities — and guides you towards a greater purpose.

Let that purpose shape your decisions. Let it fuel a lifelong pursuit of learning, drive you to contribute meaningfully and make a lasting difference in the lives of others. And while financial stability is important, don't make money your master. Purpose and rewards can co-exist.

With the rise of AI, some of you may wonder if there's still a place for human purpose. Yes, AI can write, analyse and automate — but it can't believe in something. That's why human-AI idealism is so important. When we work with AI, we can create life-changing tech – like our alumnus Dr Kev Lim, who used it to streamline patient flow and reduce wait times in clinics and hospitals, impacting over three million lives.

Our students are idealistic – in the best way. They look ahead and they anticipate. They skate to where the puck is going to be, not where it has been. Just like our two Olympians who represented Malaysia at the Paris Olympics 2024. With numerous accolades and medals to their name, they could've gone pro. Instead, they chose the long game – investing in their education and future.

A good education sets you up for success. Lifelong learning takes you further. But what does success mean to you? Is it the number of zeroes on your pay cheque? The fancy titles? Or is it building something that uplifts, supports or improves the lives of others? I hope you realise true success is the latter. Because money runs out, titles fade and the only thing that people remember you for is the impact you make.

Congratulations once again, Class of 2025. All of us at UCSI are proud of you. Stay curious. Keep learning. Then, apply what you've learned to build something meaningful.

as the

**Chancellor of
UCSI University**

Installation of the UCSI University Chancellor

UCSI University is proud to announce the installation of Tunku Zain Al-'Abidin ibni Tuanku Muhriz as its second Chancellor — a milestone that signifies a new chapter in the University's 39-year history.

A well-respected public intellectual, social advocate and cultural patron, Tunku Zain has a wealth of experience in thought leadership, education, civic responsibility and the arts. As the founding president of the Institute for Democracy and Economic Affairs (IDEAS), he actively champions policy reform, good governance and inclusive development. He is also a columnist, pianist and an ardent advocate of Malaysia's diverse heritage.

Tunku Zain's installation as Chancellor continues his close affiliation with UCSI. He served as the University's first pro-chancellor in 2021 and was appointed patron of UCSI Hospital in March this year. He has made invaluable contributions to UCSI's Bangladesh branch campus and has travelled abroad to expand UCSI's international research network. In addition to his new role, he will also continue serving as UCSI Group advisor, a role he has held since 2023.

Beyond UCSI, Tunku Zain serves as ICAN College president and Universiti Sains Islam Malaysia pro-chancellor. He also holds prominent positions at Universiti Kebangsaan Malaysia, Universiti Teknologi MARA, the University of Nottingham Malaysia and Excelerate Malaysia. He is a trustee of Yayasan Chow Kit, Yayasan Munarah, IDEAS and the Genovasi Foundation. He is also the chairman of Omesti Berhad and a director of Prima Gading Corporation.

Tunku Zain obtained his BSc in Government and Sociology and his MSc in Comparative Politics from the London School of Economics and Political Science. He later worked at the UK Houses of Parliament, the World Bank, the United Nations Development Programme, KRA Group and the Lee Kuan Yew School of Public Policy. An Eisenhower Fellow, he has been selected for various leadership programmes by the governments of Australia, France and the European Union. He has received awards for integrity and impact among young leaders.

The UCSI community congratulates Tunku Zain on his new appointment. May his leadership continue to inspire students, faculty and alumni to rise to greater heights — not only in their academic and professional pursuits but also in their roles as changemakers and global citizens.

GRADUATE ATTRIBUTES

Attaining a University degree is every student's dream, since it opens doors to career opportunities around the world. A university degree is proof of one's intellectual capacity to absorb, utilise and apply knowledge. However, in this current competitive world, one's knowledge and qualifications alone are insufficient to land that dream job or to sustain a meritorious career. Success takes more than intelligence. It requires a graduate to possess certain other personal attributes that make him/her stand out among others and be recognised as a person of substance.

Recognising the absolute importance of developing worthy personal attributes in our students that would make them attractive employees, or make them steadfast entrepreneurs on their own, UCSI University has made it part of its mission to develop Graduate Attributes within its students through various activities, in and out of the lecture halls.

Our graduates will demonstrate the following attributes:

EFFECTIVE COMMUNICATION SKILLS

The ability to present information in a highly coherent manner across different contexts.

CREATIVE AND CRITICAL THINKING ABILITIES

The ability to assess, analyse and utilise different thinking skills to determine the value of information and ideas.

ETHICAL AND CIVIC RESPONSIBILITY

The ability to function as responsible individuals with ethical values and is accountable to the local, national and international community.

KNOWLEDGE OF DISCIPLINES

VALEDICTORIAN CLASS OF 2025

**JOANNE CHAN
WEN HUI**

Bachelor of Science (Hons) in Architecture

UCSI University Trust scholar

Five-time Dean's List winner

Joanne Chan Wen Hui is not your run-of-the-mill architect. For starters, she doesn't have a burning desire to design the world's tallest buildings. Instead, she advocates community architecture, sustainability and impact at the local level. And she takes her craft and know-how to those who need it most – underserved communities in rural areas.

Her ideals led her to UCSI University. The University's COLLAB initiative – a student-driven movement championing architecture's civic responsibility – resonated with her and she wanted to join the effort. She got her opportunity in her first semester when she was part of a team that built a kindergarten for refugee children.

The experience passed as an epiphany. "The children wanted to learn so badly despite their underprivileged circumstances," she says. "Seeing them affirmed my desire to use architecture to drive meaningful change for those in need." The heavy usage of bamboo also showed her the importance of sustainability and cultural heritage.

Since then, Joanne has dedicated each semester break to COLLAB. She also identified the Paw's Eden project as her best work thus far. Raising more than RM11,000 through crowdfunding, Joanne and her team assisted a local animal shelter to customise wheelchairs for more than 20 mobility-impaired dogs, construct a bamboo hut for strays and improve the conditions of its outdoor playground.

A firm believer in peer-assisted learning, Joanne launched the Study Buddy system that fosters peer mentorship, cross-year collaboration and student-led workshops. Built to last, Study Buddy will continue long after Joanne's graduation, empowering future generations of architecture students at UCSI. And she also improved her leadership skills as president of Makelab – a society for architecture students.

Today, Joanne works as an assistant architect at LOKA – an architecture startup that promotes innovative and sustainable solutions. She could have started her career at one of the more prominent architecture firms in the region. But value alignment came first. "Working at LOKA allows me to pursue my affinities, explore my beliefs and amplify my impact," she says.

Joanne is quick to credit her mentors, particularly James Lim Chin Wai – the head of UCSI's Architecture department – for bringing out the best in her. And the respect is mutual. In Lim's words, Joanne is very much the future of architecture. "Her work reflects a deep commitment to community and innovation," he says. "As valedictorian, she represents the spirit of UCSI's School of Architecture and Built Environment: thoughtful, bold and determined to build a better world for all."

Looking ahead, Joanne plans to pursue a Master's degree and sit for the Lembaga Arkitek Malaysia (LAM) Part III Examination. Her long-term goal is to establish her own architecture firm and NGO. And she intends to revitalise rural communities and educational spaces through sustainable, culturally sensitive design.

All of us at UCSI congratulate Joanne, our valedictorian of the Class of 2025. We wish her continued success as she remakes the world in the way she knows best – brick by brick, stone by stone, calloused hand by calloused hand.

KUALA LUMPUR CAMPUS

Bachelor of Financial Technology (Honours)

The Bachelor of Financial Technology (Honours) programme at UCSI University blends the fields of finance, technology and innovation. This offer students the knowledge and skills needed to navigate the rapidly evolving financial services landscape. The programme is designed to equip students to understand financial technology concepts and practices within the industry, laying the foundation to embrace the evolvement of the financial sector and its digital transformation locally and globally.

This three-year programme enables students to acquire up-to-date vocational skills that are relevant and competitive to the industry. The curriculum is meticulously designed to incorporate both theoretical and practical skills along with sustainable practices, nurturing future-ready graduates. By integrating finance with the latest technological advancements, this programme prepares graduates to navigate and lead in the digital economy.

Edwin Yap
Zheng Wei

As a recent graduate of the Bachelor of Financial Technology programme, I can confidently say that it has equipped me with the technical skills needed in today's digital economy. It also deepened my understanding of financial systems in an increasingly tech-driven world. This has allowed me to take my place as the first graduate of this course and I do hope that many more would follow suit.

I would like to take this opportunity to express my gratitude to UCSI University for introducing and offering this programme. It has significantly enhanced my confidence in navigating the intersection of finance and technology. I am excited to put my knowledge to the test in the working world and contribute to the future of the industry as I embark on a journey of my own.

Postgraduate Certificate in Education

The Postgraduate Certificate in Education programme at UCSI University is a distinctive modular qualification designed to equip graduates with the knowledge and skills necessary to transition into the teaching profession successfully. This programme provides an academic pathway for aspiring and in-service educators to deepen their expertise and broaden their career opportunities in response to the evolving demands of the education sector.

Integrating educational theory with contemporary practice, the PGCE programme provides a robust foundation in effective teaching and learning principles. Courses are delivered by experienced professionals and subject matter experts in the field of education, ensuring high-quality instruction and relevant insights aligned with current educational trends and challenges.

Intan Munirah
Zulkahar

Being a part of UCSI University's first Postgraduate Certificate in Education cohort was a rewarding and transformative experience. The programme deepened my understanding of teaching through key subjects like Philosophy of Education, Curriculum Design, Assessment, Educational Guidance and Leadership. It further equipped me to deliver more inclusive, effective and student-centred lessons. Now with five years of teaching experience at Sekolah Sri UCSI Subang Jaya under my belt, I'm proud to be serving as acting assistant principal for academic and administrative matters in 2025.

My time in the Postgraduate Certificate in Education programme went beyond academics as it shaped my mindset and teaching practices. The programme's thoughtful integration of theory and real-world application through discussions, case studies and projects empowered me to grow as an educator and apply evidence-based strategies in the classroom.

Kumutha Chelliah

Prior to attending the Postgraduate Certificate in Education, I was a passionate Science educator with over eight years of teaching the International Baccalaureate programme, Diploma programme in Biology, Environmental Systems and Societies and the Middle Year Programme Science. I also had a strong academic background in Biotechnology from the United States and Malaysia, along with prior experience in medical research.

However, during my Postgraduate Certificate in Education, I developed skills in educational leadership, technology integration and reflective teaching practices. Using those skills, I began to teach at UCSI International School, where my student-centred approach emphasised on hands-on learning, international-mindedness and student empowerment to make meaningful contributions beyond the classroom. I'm grateful to UCSI and the Postgraduate Certificate in Education programme for making an impact and enhancing my teaching skills.

Postgraduate Certificate in Education

Wan Aiza Wan Zaid

I completed my Postgraduate Certificate in Education at UCSI University back in September 2024. Currently, I am serving as an educator at Sekolah Sri UCSI Subang Jaya, where I teach Science. With a bachelor's degree in Science Biology from UiTM Pahang and the Postgraduate Certificate in Education from UCSI University, I now bring a strong academic background to my role as a dedicated and passionate teacher. My experience at UCSI University provided me with valuable insights along with the practical skills essential for my development as a professional educator.

Through the Postgraduate Certificate in Education programme, I explored key areas such as the philosophy and sociology of education, practical application of pedagogical methods, assessment techniques and the integration of technology in the curriculum. These components have played a vital role in shaping my teaching approach and classroom practice. My journey reflects the commitment to lifelong learning and excellence in education, which I hope can serve as an inspiration for aspiring educators.

Zulkifli Mohd Alias

Being part of UCSI University's inaugural Postgraduate Certificate in Education cohort was a profoundly enriching experience. The programme significantly broadened my perspective on teaching and learning, placing a strong emphasis on critical disciplines such as assessment and evaluation, philosophy of education, technology in curriculum development, sociology and educational management and leadership.

Complemented by the practicum component, the programme effectively bridged theory and practice, enabling me to approach lesson planning with a focus on technology integration, inclusivity, instructional effectiveness and student engagement. I am currently employed in the oil and gas industry, where my knowledge gained through the Postgraduate Certificate in Education is being adaptively applied across various professional domains. These include mentoring, the design and delivery of training programmes, knowledge-sharing initiatives, team collaboration and leadership development.

FIRST COHORT OF GRADUATES

KUCHING CAMPUS

Diploma in Event Management

The Diploma in Event Management is designed to equip students with the necessary skills and knowledge to thrive in the dynamic and ever-evolving event industry, aligning with the Industrial Revolution 4.0 and the United Nations' Sustainable Development Goals (SDGs).

At the heart of this programme lies the praxis education concept, where experiential learning is placed at the forefront to ensure students gain hands-on, real-world experience. This makes their learning journey relevant, engaging and industry-ready. Through a curriculum that integrates theory with practical application, students will develop the ability to plan, execute and manage successful events, with a strong emphasis on sustainable event practices and technology-driven operations.

Beyond core event management competencies, students will also be exposed to entrepreneurship, communication, marketing, financial management, risk assessment, event technology, human resources and business event management. This holistic approach ensures graduates are well-prepared to meet industry demands and contribute meaningfully to the future of the event sector.

Ivy Glyniss
Anak Kana

Reflecting on my journey as part of the first cohort of Diploma in Event Management graduates at UCSI University, I am truly grateful for the experiences, challenges and lessons that have shaped me. Every step – from conceptualising and executing live events to navigating unexpected hurdles – has contributed to my growth as an event manager.

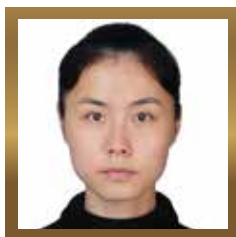

One of the most rewarding aspects of my studies was the hands-on exposure to real-world event planning. Through coursework, internships and university-led projects, I had the opportunity to bring my ideas to life while honing my problem-solving and leadership skills. These experiences have been instrumental in preparing me for my future career.

I am sincerely grateful to my lecturers, whose expert guidance and industry insights have been invaluable in shaping my knowledge and approach to event management. Finally, I am deeply thankful to my parents and sisters for their love, encouragement and belief in me. Just as the support of my lecturers has been integral to my academic and professional growth, my family's support has been a constant source of strength.

OUTSTANDING POSTGRADUATE PUBLICATION AWARD 2025

The award is presented to graduating postgraduate students who, as first or corresponding authors, have published at least two full-length articles derived from their PhD theses in journals ranked in WoS Q1/2 or Scopus Q1.

THE ALUMNI ASSOCIATION

For the past 39 years, UCSI University has touched the lives of more than tens of thousands of young men and women who had entered its threshold with different dreams and aspirations and had walked through its corridors with shared experiences.

These shared experiences have resulted in the birth of the UCSI University Alumni Association, a service for all the University's graduates to network regardless of colour, culture, creed or political affiliation.

As you graduate today and move forward in your professional life within your chosen industries, stay in touch with those who have shared your experiences through the UCSI University Alumni Association. Through this network, you will be able to:

- Engage in lifelong learning personal and professional developments via the many programmes organised by the Alumni Association Executive Committee.
- Nurture your connection with coursemates and friends, past and present.
- Get involved in our local community projects to become the minder of our beloved Mother Nature.
- Network with members of other organisations, clubs and societies with similar objectives.
- Get new contacts within the industry.
- Establish contacts locally and internationally.

If the Alumni Association can be of assistance to you or if you would like to get involved as a volunteer, do not hesitate to stop by and visit us at:
